To Whom it May Concern:

Feel free to use the Perceived Stigma of Substance Abuse Scale (PSAS) in your research. If you have any questions about the scale, please email me. I would also ask that you let me know about any results you obtain using the scale and/or send me a copy of any articles that you publish that contain the scale. There is little research being conducted on stigma in addiction and so I like to try to help facilitate new research and keep abreast of what's happening. The appropriate reference is listed below.

Please also note that there was a minor error in the original publication that stated that the measure was scored using a 7-point Likert scale. The measure was actually scored using the 4-point Likert scale as used in the measure below.

Regards,

Jason B. Luoma, Ph.D.
Licensed Psychologist in Oregon
Director, Portland Psychotherapy Clinic, Research, and Training Center
Business phone: 503-281-4852
Email: jbluoma@portlandpsychotherapyclinic.com

The scale and publication can be obtained at:
http://www.portlandpsychotherapyclinic.com/training/publications

Reference:

Scoring
This scale provides a single total score.
Reversed scored items are 1, 2, 3, 4, 6, 8
The scale total score ranges from 8-32 with higher scores indicating greater perceived stigma
PSAS

Please read each statement carefully and circle the number below the item that indicates the degree of your agreement or disagreement with each statement. Please use the scale below, and please do not omit any item.

1. Most people would willingly accept someone who has been treated for substance use as a close friend.

<table>
<thead>
<tr>
<th></th>
<th>1</th>
<th>2</th>
<th>3</th>
<th>4</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Strongly disagree</td>
<td>Disagree</td>
<td>Agree</td>
<td>Strongly agree</td>
</tr>
</tbody>
</table>

2. Most people believe that someone who has been treated for substance use is just as trustworthy as the average citizen.

<table>
<thead>
<tr>
<th></th>
<th>1</th>
<th>2</th>
<th>3</th>
<th>4</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Strongly disagree</td>
<td>Disagree</td>
<td>Agree</td>
<td>Strongly agree</td>
</tr>
</tbody>
</table>

3. Most people would accept someone who has been treated for substance use as a teacher of young children in a public school.

<table>
<thead>
<tr>
<th></th>
<th>1</th>
<th>2</th>
<th>3</th>
<th>4</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Strongly disagree</td>
<td>Disagree</td>
<td>Agree</td>
<td>Strongly agree</td>
</tr>
</tbody>
